

**CAP Operations for 2005-06**

The four committees depicted in triangles (Policy, State of the State, Data, and Regional Activities) are standing committees comprised of Steering Committee members and general members that will work on issues related to CAP activities. The three committees depicted in ovals (Governance, Mission, and Membership) are internal SC committees that will convene as necessary to address infrastructure issues for CAP.

The arrows represent communication among and between the various committees. This will ensure that activities and priorities for each committee are complementary, and will help to establish a cohesive CAP agenda. The activities stated are suggested only, based upon discussions at previous meetings. Each committee will be responsible for determining its own priorities and goals.
